

FilipinaSingles Patakaran sa Kaligtasan sa Pagsusulid (Taglog)

Online Safety

- 1 Huwag kailanman magpadala ng pera para sa anumang dahilan at ireport agad ang sinumang humihingi nito.
- 2 Huwag ibahagi ang personal na impormasyon tulad ng bahay, numero ng telepono, impormasyon sa pinansya, lugar ng trabaho, o iba pang sensitibong datos.
- 3 Maging maingat sa mga taong agad na nagtatanong ng Whatsapp o iba pang paraan ng komunikasyon.
- 4 Hindi namin ma-identify ang mga scammers na nagko-communicate sa labas ng aming site, tulad ng sa Whatsapp o Line. Subukan makipag-usap dito sa site at kilalanin muna ang ibang tao bago magbahagi ng ibang chat ID para maging mahirap sa mga scammers.

Profile Photo Verification

- 1 Ang isang naverify na profile ay nagpapakita na sinuri ng aming mga moderator ang mga selfie ng user laban sa kanilang mga larawan sa profile.
- 2 Bagamat ito ay nagbibigay-protekta laban sa catfishing (paggamit ng pekeng mga larawan), manatili pa ring maingat.

Offline Safety

- 1 Kung magpasya kang magtagpo sa personal, sundan ang ilang mga safety tips:
 - Gumawa ng maikling video call bago magtagpo, kahit na may verified profile.
 - Pumili ng pampublikong lugar tulad ng mall para sa unang pagkikita.
 - Huwag maghati ng sasakyan.
 - Magtagpo sa oras ng araw.
 - Sabihan ang isang kaibigan kung saan ka pupunta o mas mainam, dalhin sila sa unang pagkikita.
 - Huwag uminom ng alak sa unang date at bantayan ang iyong mga inumin at personal na gamit.
- 2 Kung mayroong hindi kanais-nais na karanasan, maaari mong i-report sa amin sa info@filipinasingles.org.

FilipinaSingles Dating Safety (English)

Online Safety

Never send money for any reason and report anyone who asks

Do not share any personal information including home address, phone number, financial information, place of work or other sensitive data.

Be wary of people immediately asking for Whatsapp or other method of communication

We cannot identify scammers that communicate outside of our site - such as on Whatsapp or Line. Try to talk here and get to know someone first before sharing another chat ID. This makes it difficult for scammers.

Do not share any photos or personal information with people you do not trust.

Profile Photo Verification

A verified profile shows that our moderators have checked their selfies against their profile photos to prove that they are really the person in the photo. While this protects against catfishing (someone using fake photos) you should remain vigilant.

Offline Safety

If you choose to meet someone in real life here are some safety tips:

Have a short video call with someone first before meeting - even if they have a verified profile. A vibe check can save you both time!

Meet in a public place such as a mall

Dont share a vehicle with them

Meet in the daytime

Tell a friend where you will be or even better bring them along for the first meeting

Do not drink alcohol on the first date. Dont leave any drinks or personal items like a phone/bag unattended while you go to the bathroom.

Have a friend call you 15 minutes into a date so you have an excuse to leave if things arent going well

Reporting Profile & Photos

Help maintain a safe environment for all by reporting profiles that violate our guidelines.

You can report profiles with the "Report Profile" option on every profile. Giving a reason helps us be more clear about blocking the user

We do not notify the other user that you reported them

If you accidentally report someone dont worry about it - we dont block people without a good reason

You can report bad messages from the contact us page

Contact us

If you had a bad experience with a member that blocked you or deleted their profile - you can email us so we can investigate: **info@filipinasingles.org**
